REF No.	MSDS/01
Rev. Date	15/11/15
Issue Date	31/03/17
Version No.	1

MATERIAL SAFETY DATA SHEET <u>ECO-IMPRES 4016</u>

1.	Product & Company Iden	ntification				
	Product Details Description: Product Code/s: Recommended Use: Chemical family:	-IMPRES 40	l. (Chem. Ind.) use only			
	Company Details Address: 210/211, Narmada, Laxmi Indl. Premises, Pokhran Rd., Vartak Nagar, Thane		E-Mail: sales@an		5855379 585 5714 nuvichem.com uvichem.com	
2.	Composition / Informatio	n on Ingred	lients			
	Chemical Characterization			CAS #	% Range	
	Acrylic Solution in Water Modified acrylic Copolym		EC 1272/2008 EC 1272/2008	45 - 55 20-40		
	Ammonium Hydroxide Wax Emulsion		1336 – 21 - 6 EC 1272/2008	< 3-10 % < 10 %		
	2 – Propanol Alcohols secondary,	C11 - C15 Ethoxylate	;	67-63-0 68131- 40 - 8	0 to 5 % < 2 %	
	Hazards not otherwise Clas According to Regulation 1		Hazard Comm	unication Standard	; 29 CFR Part 1910.	1200
	Emergency Overview:			Use with local exhaust ventilation. Handle in accordance with good industrial hygiene and safety practice. If used as intended, this product is not expected to present a physical or health hazard.		
3.	Hazards Identification					
	Emergency Overview Physical Appearance	Free flow odour	ving milky to	translucent liquid -	- Characteristic	X
	Potential Health Effects Eyes Skin	May cause eye burning or irritation on over exposure May cause irritation in the form of redness, burning or dermatitis (last one in severe cases or person being allergic)			Di tha	
	Ingestion	Chemicals present in this mixture may be ha swallowed. Also, may affect nervous systen abdominal discomfort.			harmful if	R

4. First Aid Meas	ures
Eyes	Immediately flush eyes with plenty of water for two to three minutes. Remove eye contact lenses (if wearing one) and continue flushing with water for 15 minutes. Get medical attention
Skin	Remove contaminated clothing and immediately wash affected area with plenty of soap and water. Seek medical attention where necessary. Wash contaminated clothing before use.
Ingestion	Contact local medical practitioner or medical help. Do not induce vomiting unless advised by medical practitioner. If vomiting occurs then keep head lower than hips to help prevent aspiration. Get medical attention immediately.
Inhalation	Remove the patient to fresh air (open and airy space), supply oxygen if breathing is difficult. Seek medical attention immediately.
Clothing	Remove contaminated clothing and wash the affected body part/s with water

5. Flammability & Fire Fighting Measures

Extinguishing media Hazardous combustion products	Water spray, Dry Powder and Foam Harmful vapours. Evolution of fumes & fog. Substances / group substances can be released in case of fire.
Firefighting equipment	Fire fighters must be equipped with self-contained breathing apparatus and
	turn-out gear.
	Contaminated fire extinguishing water must be disposed off in accordance
	with the official regulations.

6. Accidental Release (spillage / leakage) Measures

General procedureVacate area of spill or leak. Wear appropriate personal protective
equipment. Contain and recover liquid to the extent possible Collect the
liquid in an appropriate container or absorb with an inert material like saw
dust / dry sand / universal binder / acid binder or cloth stripes (Chindhi) etc.
Disperse any vapour and flush spill away from the personnel or other
ignitable material. Whatever is collected from the accidental release – treat
as prescribed under Disposable Material"
Do not discharge in to drains, ground water and/or surface water streams.

7. Handling & Storage

General procedure Precautions against Fire & Explosion	No special measures necessary provided product is used correctly No special precaution/s necessary
Conditions for storage, including ay in- compatibilities	Keep containers tightly closed and in a cool place
Shelf Life	One year from date of manufacture when stored in original sealed container at recommended storage temperature range.

8. Exposure Control & Personal Protection

Exposure guidelinesOSHA Hazardous Components (29 CIR 1910.1200) – Exposure LimitsPersonal Protection Equipment

ANUVI CHEMICAL LTD. ECO-IMPRES 4016

Eye & face Skin

Respiratory

Wear safety glasses with side shields or goggles when handling this material Wear impervious gloves and appropriate protective clothing as required to minimize contact with skin

A half-face organic vapour respirator maybe worn for protection up to ten or fullface respirator for protection up to fifty times the exposure limit or the maximum use concentration specified by the appropriate regulatory agency or respirator supplier. Whichever is lowest must be followed. For emergencies where the exposure levels are unknown, use a full-face air respirator.

9. Physical & Chemical Properties

Physical State Off white liquid % Solid Content 31-34% Brookfield viscosity cps 200 -400 cps Spindle 3/RPM 60 at 30°C 7.5 -9.5 pН Vapour Density Heavier than air **Boiling Point** Around 100°C Freezing Point $0^{\circ}C$ Melting Point Not applicable Solubility in Water Yes Flash Point No flash point (measurement made up to boiling point) Flammability Not Flammable Lower explosion limit 15 % (V) Upper explosion limit 28 % (V) Auto-ignition Due to high water content - product does not ignite 1.04 g/cm^3 Density Thermal decomposition Stable up to boiling point VOC or % Volatilities < 1 % Evaporation rate Not determined

10. Stability & reactivity

No hazards if stored / handled as prescribed
No fire propagation
Product is stable if product is stored and handled as prescribed.
Shall not occur, if product is stored as prescribed
See sec. 7 (Handling & Storage)
No such material identified
No hazards if stored / handled as prescribed
Stable up to boiling point

-	
Primary routes of exposure	Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact.
	Routes of entry for gases include inhalation and eye contact.
	Skin contact may be a route of entry for liquefied gases.
Acute Toxicity:	Assessment of acute toxicity: Virtually nontoxic after a single ingesti
	Oral Type of value: LD50
	Species: rat
	Value: > 5,000 mg/kg
2. Ecological Information	
Environmental data	No data available.
3. Disposal Considerations	
Product	Material that cannot be transferred to recovery or re-cycle should be
	 handled as hazardous waste and the extract disposed off at a Govt. Approved waste facility or incinerator (or handed over to waste hand)
	authorised contract). Always dispose according to the current regulat
	or the acts of the country of residence.
	Dispose of in accordance with national, state and local regulations. It
	the waste generator's responsibility to determine if a particular waste hazardous under RCRA.
Un-cleaned packing:	Contaminated packing material should be emptied as for as possible a
	after appropriate cleaning could be re-used or disposed as per the
	regulations.
4. Transport Information	
Department of Transport	
Proper Shipping Name Technical Name	Polymer Emulsion Acrylic Polymer Emulsion
Land Transport (USDOT)	Not classified as Dangerous Goods under Transport Regulations
Sea Transport (IMDG)	Not classified as Dangerous Goods under Transport Regulations
Air Transport (IATA / ICA	O) Not classified as Dangerous Goods under Transport Regulations
5. Regulatory Information	
Federal regulations	
Registration status	Chemical - TSCA US Released list
EPCRA 311/322 Hazard category	Acute; Chronic
NFPA Hazard Codes	Health: 1; Fire: 0; Reactivity: 0; Special: None
HMIS III Rating	Health: 1; Flammability: 0; Physical hazard: 0
