REF No.:	MSDS/01
Rev. Date:	15/11/15
Issue Date:	31/03/17
Version No.	1

MATERIAL SAFETY DATA SHEET <u>ECO-IMPRES-4068-A</u>

Product Code/s: E	Acrylic Resin sol CO-IMPRES – (hem. Ind.) use of	4068-A	
Company Details Address: 210/211, Narmada, Laxm Indl. Premises, Pokhran Rd., Vartal Nagar, Thane	· · · · · · · · · · · · · · · · · · ·	+ 9122 2 sales@a	25855379 2585 5714 nuvichem.com nuvichem.com
2. Composition / Information on Ing	redients		
Chemical Characterization: Water		<u>CAS #</u> 7732 - 18 - 5	<u>% Range</u> 45 - 55
Amine Salt of Modified Acrylic Copolymer		EC 1272/2008	40 - 50
Ammonium Hydroxide Alcohols - C11 - C15 secondary, E	thoxylated	1336 – 21 - 6 68131 - 40 - 8	< 1 % < 2 %
Hazards not otherwise Classified: According to Regulation 1994 OSH	IA Hazard Com	nunication Standard	; 29 CFR Part 1910.1200
Emergency Overview:		accordance with go safety practice. If u	nust ventilation. Handle in od industrial hygiene and sed as intended, this product is sent a physical or health
3. Hazards Identification			
	flowing Transpa acteristic odour	rent & pale yellow 1	iquid –
Potential Health Effects			

May cause eye burning or irritation on over exposure May cause irritation in the form of redness, burning or

Chemicals present in this mixture may be harmful if swallowed. Also, may affect nervous system and cause

May cause moderate respiratory irritation, dizziness,

abdominal discomfort.

fatigue, nausea & headache

dermatitis (last one in severe cases or person being allergic)

Potential Health Effects Eyes Skin

Ingestion

Inhalation

1 6

4.	First Aid Measures				
	•	Immediately flush eyes with plenty of water for two to three minutes. Remove eye contact lenses (if wearing one) and continue flushing with water for 15 minutes. G medical attention			
	Skin:	al attention we contaminated clothing and immediately wash affected area with plenty of nd water. Seek medical attention where necessary. Wash contaminated ng before use.			
	Ingestion:	Contact local medical practitioner or medical help. Do not induce vomiting unless advised by medical practitioner. If vomiting occurs then keep head lower than hip to help prevent aspiration. Get medical attention immediately.			
	Inhalation:	nove the patient to fresh air (open and airy space), supply oxygen if breathing i ficult. Seek medical attention immediately.			
	Clothing	Remove contaminated clothing and wash the affected body part/s with water			
5.	Flammability & Fir	re Fighting Measures			
	Extinguishing media Hazardous combusti products: Firefighting equipm	ion Harmful vapours. Evolution of fumes & fog. Substances / group substances can be released in case of fire.			
6.	Accidental Release	(spillage / leakage) Measures			
6.	Accidental Release General procedure:	(spillage / leakage) Measures Vacate area of spill or leak. Wear appropriate personal protective equipment. Contain and recover liquid to the extent possible Collect the liquid in an appropriate container or absorb with an inert material like saw dust / dry sand / universal binder / acid binder or cloth stripes (Chindhi) etc Disperse any vapour and flush spill away from the personnel or other ignitable material. Whatever is collected from the accidental release – trea as prescribed under Disposable Material" Do not discharge in to drains, ground water and/or surface water streams.			
		Vacate area of spill or leak. Wear appropriate personal protective equipment. Contain and recover liquid to the extent possible Collect the liquid in an appropriate container or absorb with an inert material like saw dust / dry sand / universal binder / acid binder or cloth stripes (Chindhi) etc Disperse any vapour and flush spill away from the personnel or other ignitable material. Whatever is collected from the accidental release – trea as prescribed under Disposable Material" Do not discharge in to drains, ground water and/or surface water streams.			
	General procedure:	Vacate area of spill or leak. Wear appropriate personal protective equipment. Contain and recover liquid to the extent possible Collect the liquid in an appropriate container or absorb with an inert material like saw dust / dry sand / universal binder / acid binder or cloth stripes (Chindhi) et Disperse any vapour and flush spill away from the personnel or other ignitable material. Whatever is collected from the accidental release – trea as prescribed under Disposable Material" Do not discharge in to drains, ground water and/or surface water streams.			
	General procedure: Handling & Storage General procedure: Precautions against	Vacate area of spill or leak. Wear appropriate personal protective equipment. 	General procedure: Handling & Storage General procedure: Precautions against & Explosion Conditions for stora including ay in- compatibilities Shelf Life	Vacate area of spill or leak. Wear appropriate personal protective equipment. Contain and recover liquid to the extent possible Collect the liquid in an appropriate container or absorb with an inert material like saw dust / dry sand / universal binder / acid binder or cloth stripes (Chindhi) et Disperse any vapour and flush spill away from the personnel or other ignitable material. Whatever is collected from the accidental release – trea as prescribed under Disposable Material" Do not discharge in to drains, ground water and/or surface water streams. Prire No special measures necessary provided product is used correctly No special precaution/s necessary ge, Keep containers tightly closed and in a cool place One year from date of manufacture when stored in original sealed container			

Personal Protection Equipment:

Eye & face Skin

Respiratory:

Wear safety glasses with side shields or goggles when handling this material Wear impervious gloves and appropriate protective clothing as required to minimize contact with skin A half-face organic vapour respirator maybe worn for protection up to ten or fullface respirator for protection up to fifty times the exposure limit or the maximum use concentration specified by the appropriate regulatory agency or respirator supplier. Whichever is lowest must be followed. For emergencies where the

exposure levels are unknown, use a full-face air respirator.

9. Physical & Chemical Properties

Physical State % Solid Content Brookfield viscosity cps Spindle 3/RPM 60 at 30°C pН Vapour Density **Boiling Point Freezing Point** Melting Point Solubility in Water Flash Point Flammability Lower explosion limit Upper explosion limit Auto-ignition Density Thermal decomposition VOC or % Volatilities **Evaporation** rate

Transparent & pale yellow liquid 35 ± 2 12000 ± 16000 8.5 ± 1 Heavier than air Around 100°C $0^{\circ}C$ Not applicable Yes No flash point (measurement made up to boiling point) Not Flammable 15 % (V) 28 % (V) Due to high water content - product does not ignite 1.04 g/cm^3 Stable up to boiling point < 1 % Not determined

10. Stability & reactivity

No hazards if stored / handled as prescribed Reactivity Oxidizing properties No fire propagation Chemical Stability Product is stable if product is stored and handled as prescribed. Polymerization or Shall not occur, if product is stored as prescribed Hazardous reactions: Conditions to avoid See sec. 7 (Handling & Storage) No such material identified Incompatible material/s hazards Hazardous decomposition No hazards if stored / handled as prescribed products Thermal decomposition Stable up to boiling point

Primary routes of exposure	Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact.
	Routes of entry for gases include inhalation and eye contact.
	Skin contact may be a route of entry for liquefied gases.
Acute Toxicity:	Assessment of acute toxicity: Virtually nontoxic after a single ingestion
	Oral Type of value: LD50
	Species: rat
	Value: > 5,000 mg/kg
2. Ecological Information	
Environmental data	No data available.
3. Disposal Considerations	
5. Disposal Considerations	
Product	Material that cannot be transferred to recovery or re-cycle should be
	handled as hazardous waste and the extract disposed off at a Govt. Approved waste facility or incinerator (or handed over to waste handl
	authorised contract). Always dispose according to the current regulat
	or the acts of the country of residence.
	Dispose of in accordance with national, state and local regulations. It
	the waste generator's responsibility to determine if a particular waste
Un-cleaned packing:	hazardous under RCRA. Contaminated packing material should be emptied as for as possible a
on monor promis.	after appropriate cleaning could be re-used or disposed as per the
	regulations.
4. Transport Information	
Department of Transporta	
Proper Shipping Name Technical Name	Resin solution Styrene Acrylic Resin Solution
Land Transport (USDOT)	Not classified as Dangerous Goods under Transport Regulations
Sea Transport (IMDG)	Not classified as Dangerous Goods under Transport Regulations
Air Transport (IATA / ICAC) Not classified as Dangerous Goods under Transport Regulations
5. Regulatory Information	
Federal regulations	
	Chemical - TSCA US Released list
Registration status	
Registration status EPCRA 311/322 Hazard	Acute; Chronic
Registration status	Acute; Chronic Health: 1; Fire: 0; Reactivity: 0; Special: None
